

MEMORANDUM

To: HCLA CEOs, COOs, CMOs and Quality Management Staff
From: Linda Deaktor, VP, HIT & QM
Date: February 25, 2016
RE: Episource HEDIS Portal

We are pleased to announce that the MedPOINT- Episource HEDIS Portal is now available. The portal will provide HEDIS performance information by selected line of business.

Data on the portal will be refreshed quarterly and provide summary IPA level and individual clinic level data for analysis and member outreach purposes. Once you log in, a user guide is available on the site. Additionally, a demonstration of the site will be featured at the Inaugural Quarterly QI Forum on Wednesday, 3/2/16.

To register, please do the following:

- a) Input the following URL into your browser: <https://hedis.episource.com> and you will automatically be directed to the login page. [Note: Chrome or IE v10 or higher are preferred browsers]
- b) Click the 'Register as a new user' link toward the bottom of the page and you will be directed to the account registration page.
- c) Input your Vendor ID which will be the Clinic's Tax ID without punctuation.
- d) Next enter HCLA when requested to enter your IPA name.
- e) In the next field, create a password that is at least seven (7) characters and includes at least one capital letter, one number and one symbol.
- f) You will then be asked to re-enter the password.

Once registered, you will only need to enter your vendor ID and password to enter the site. Please note that the logins are clinic specific and not assigned at the user level.

The following reports will be available on the site.

- a) Provider/Clinic Summary Report: This will display your individual clinic's HEDIS performance ratings by line of business with a corresponding dashboard.
- b) IPA Level Summary Report: This will display HCLA's HEDIS performance ratings by line of business.
- c) Member Quality Compliance Report Cover Page: This document describes the information available in the Member Quality Compliance Report.

- d) Member Quality Compliance Report: This report will provide you with member level details regarding which members have met and which members have not met the requirements to fulfill selected quality measures.

The current reports posted reflect administrative data received by MedPOINT to date for Measurement Year 2015. Data received directly at the health plan is not included. If you submitted supplemental data to MedPOINT, this data is not included in the summary either.

In late March, you will receive notice that the portal has been refreshed to reflect Q1 2016. At that time, measures that require pharmacy data will also be included. It will also be a good opportunity to begin using the reports for member outreach as many of the measures can easily be met early in the year.

We hope that you find the reports useful and that you will use them to continually improve individual clinic and IPA performance in these areas.

If you have any questions, please e-mail me at ldaktor@medpointmanagement.com or call me directly at 818.702.0100 x236. Members of our quality measures team are also available to assist and can be reached at qualitymeasures@medpointmanagement.com or 818.702.0100 x353.
